DETAILED ACTION

Allowable Subject Matter

1. Claims 18-19, 21-23, 25, 28-30, 32-41, 43-45, 47, and 49-52 are allowed.
2. The following is an examiner's statement of reasons for allowance:

After carefully reviewed the Applicant's arguments and newly amended claims in paper filed 8/11/06, and updated prior art of record, the Examiner finds that the Applicant's arguments and newly added limitations are reasonable and strongly persuasive. Therefore, they place the application in condition for allowance. The primary reason for the indication of the allowability of the above claims is the inclusion therein, in combination as currently claimed as a whole, of the limitation of the multi-layer board including impedance elements on the sides of the ceramic substrate which is covered by resin layer, where the resin has a lower dielectric constant than the ceramic substrate, and a ground pattern on the second side of the first resin layer and arranged such that no portion of the ground pattern is located on the second side of the first resin layer. The resin layers are in contact with the ceramic substrate. This limitation is found in the above claims and is neither disclosed nor taught by the prior art of record, alone or in combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
